Thank you everyone for your patience and understanding as we put into place our whole school online learning platforms. When you receive your child's login details for Seesaw please have your child log in so the teacher can see that they are able to access the platform. This is a learning curve for everyone so please let us know if you have any problems. Teachers love to see their students' comments and work online, and are enjoying replying and giving feedback about their work.

Our school has now implemented a flexible timetable for our staff. This will enable teachers to work from home supporting student learning as well as collaborating online to prepare further work.

There is also an appropriate number of teachers and support staff to support the students at school. Remember we are all working on the one unit.

Please let us know as soon as possible if you do not have access to a computer or laptop and the internet.

We are all very proud to be part of such a supportive community. Please don't hesitate to call us if you need support.

Mrs Wright
